

Cloud Hosted Server

As it becomes increasingly important to have access to your data anytime, from anywhere, more people are looking to leverage the power of the Cloud. As a result, Infusion can now offer you Cloud Hosting which allows you to have all the benefits of Cloud Computing and still be able to use the power of Infusion software to run and drive your business.

High Speed access to your software is available.

- 24/7 access to your Infusion software from any computer with internet access
- Your data is automatically backed up three times a day
- No need to purchase local expensive servers and work stations
- Allow remote sales staff to access the software
- Work from home or away from the business
- Full security and access controls
- Hosting of Third party applications
- Support for iPad and Mac*
- Centralised software updating
- Provide the owner, management and staff direct access to your software via the Cloud Hosted Server.
- Access for your Accountant

Access your Infusion Business Software or SPROCKIT™ Dealer Management System from any computer with internet access
